LINKEDIN | GITHUB | LEETCODE | HACKERRANK

EDUCATION

N.K. ORCHID COLLEGE OF ENGINEERING

FULL-TIME BACHELOR OF TECHNOLOGY ELECTRICAL ENGINEERING

CGPA: 6.5/10

July 2022 - July 2026
Solapur, Maharashtra, India

EXPERIENCE

TENSORGO SOFTWARE PVT. LTD. | FULL STACK INTERN

Hyderabad, India | May 2026 – Present

Cut overall infrastructure running costs by ~30% through backend optimization, DB-call reduction and optimization

Optimized inefficient database calls, reducing API response latency by ~60ms

Integrated LLM APIs into the production backend

Built and optimized 50+ React/TypeScript frontend pages and shipped several tested backend features

Automated recurring database cleanup via scheduled cron jobs

SKILLS

PROGRAMMING LANGUAGES

JavaScript, TypeScript, Python, HTML, CSS, C/C++

LIBRARIES/Frameworks

React, Redux, Tailwind CSS, Node.js, Express.js, Zod

TOOLS / PLATFORMS

Git, GitLab, Docker, Postman, Linux, Claude Code, AnitGravity, GitHub

DATABASES

MongoDB, PostgreSQL, MySQL, Drizzle ORM, TypeORM

PROJECTS / OPEN-SOURCE

FULL-STACK E-COMMERCE PLATFORM | [Link](#)
Tailwind CSS

React, Redux, Node.js, Express.js, MongoDB, JWT,

- Implemented JWT-based authentication with role-protected REST API endpoints.
- Optimised Redux state management (~40% improvement).
- Built modular, reusable React component architecture.
- Deployed responsive UI with Tailwind CSS improving mobile usability.

SPORTZ REAL-TIME SPORTS EVENT STREAMING BACKEND | [Link](#)
PostgreSQL, Drizzle ORM, Zod, Pub/Sub

Node.js, WebSockets,

- Architected low-latency real-time broadcasting system delivering live sports commentary via WebSockets.
- Designed pub/sub event streaming architecture for high concurrent subscribers.
- Built REST APIs with Zod validation and modelled event data using PostgreSQL with Drizzle ORM for type-safe DB operations.

HONORS & AWARDS

- LeetCode 365-Day Badge
